Linseed heating neck cushion

VIDÉO DISPONIBLE JUSTE EN DESSOUS !

- 835193

- **The analgesic benefits of linseed combined with heat**
- **For gentle, extended heat**
- **Reheat in the microwave**

These cushions provide gentle, evenly distributed heat to the parts of the body they come into contact with. The cushions are flexible and adapt perfectly to all body shapes. Flax seeds are naturally pain-relieving and store heat from the microwave, releasing it slowly. The thick, ultra-comfortable anthracite grey cover is very soft on the skin. The covers are sewn internally to prevent the flax seeds from falling out from one side of the cushion. Surface cleaning only.

Fits snugly around the neck and covers the shoulders.
Dimensions : 32 x 32 cm.
Weight : 730 g.

Cushions available in 4 other models depending on use.

Date d'impression : 11/11/2026
