OTTEC knee brace

- 117017

- **Excellent knee support**
- **Made from thermoformed fabric: provides thermal support, elasticity, and breathability**
- **Relieves pressure on the kneecap**

Knee orthosis made from thermoformed fabric: thermal, elastic, and highly breathable support. Patella opening to avoid pressure and facilitate flexion-extension. Spiral lateral stays. Elastic straps regulate compression on the thigh and calf. Open popliteal area. Easy to put on, adjust, and check. Viscoelastic padding included. Includes silicone inserts inside to prevent any slippage.

One size, height: 26 cm.
