

FIX floor-to-ceiling grab bar

The Fix floor-to-ceiling support bar can be installed anywhere in the home without the need for a load-bearing wall. It is secured between the floor and the ceiling using an extension jack system. The bar can be dismantled into three parts for easy transport and travel. The pivoting section rotates and locks every 45°. Suitable for ceiling heights from 2.10 m to 3 m.

Material: Steel with corrosion-resistant coating.

Pivoting section length: 47 cm.

Floor base diameter: 19 cm.

Weight: 9 kg.

Maximum user weight: 160 kg.
