

Quad cane

The Quadromobile is a cane designed to provide a smooth and comfortable walking experience while offering support. It features brakes on both rear wheels, a cane holder, and bag supports. Foldable for easy storage. Two front-wheel positions can be selected using the yellow latch: flat wheels or angled wheels to facilitate changes of direction.

Dimensions: W 16 × D 46 × H 77.5–89 cm (handle adjustable in 5 positions).

Weight: 1.66 kg.
