

NEOTENS SPENGLER wrist blood pressure monitor

Compact and lightweight electronic wrist blood pressure monitor, designed for convenient use in clinics, home visits, or at home. It provides fast and comfortable oscillometric measurement during inflation, with an LCD digital display. This Class IIa medical device features memory for two users (50 measurements each), arrhythmia detection, and compatibility with the SPENGLER HTA app for blood pressure monitoring. Supplied with 2 AAA batteries.

3-year warranty.
